

# Hello!

Some of you know me from being on stage with *The Kincardine Theatre Guild* or from my gym *Silver Lake Fitness*.

I have had many careers – from personal trainer to business woman.

For the past 2 years I have been writing my first book,

## **“Shining the Light on Municipal Politics”**

### **Did you know.....**

Brian Mulroney (*former PM*) signed Canada on to the global initiative “United Nations Agenda 21” in 1992?

All municipalities have been quietly forced to implement **Agenda 21**, also known as “**Sustainable Development**”.

Kincardine did their local Agenda in 2012 & called it “Integrated *Sustainable* Community Plan”. It’s on their website.

**PROBLEM**....It’s a foreign agenda based on bad climate science, illegal government conversion & deceitful usurpation of public assets.

### **FACT - The agenda was quietly implemented in 3 stages:**

1. regionalize local governments through amalgamation
2. create both a public & private governing tier system
3. create the Municipal Act, 2001 outlining what these new tiers can & can not do

### **FACT - This is why we saw:**

- mayor secret meetings, councilors silenced & ineffective
- public assets sold without our knowledge or consent
- huge infrastructure projects made in secret - privately owned but publically funded

### **FACT - Since 2000, we have seen:**

- amalgamation of our hospitals
- privatization of our hydro company
- secret meetings & side corporations
- 48% increase in property taxes
- no audit of the Municipal accounts
- illegal sale of our phone company & other public assets
- CEO/CAO offering Kincardine as a “willing host” for nuclear waste burial with NO local consent
- industrial wind turbines
- unwanted water pipeline contract
- a natural gas pipeline proposal that includes local fracking plans
- increase in intensity & number of O.P.P. police in the area

### **FACT - what COULD be coming:**

- more & bigger secret meetings
- a bigger nuclear waste site - Pickering & Darlington are decommissioned by 2020. Owned by OPG. Where will the waste go..?
- more pipeline contract breaches – this natural gas one could involve LOCAL fracking to supply you
- more wind turbines even though the science is flawed & Kincardine could be facing huge law suits
- more police presence to ensure compliance when people voice concerns... or get sick....or both

**Enough is enough.**

**It’s time for a change.**

Randy Roppel has been representing this area for over 10 years.

- Did he explain this foreign agenda to you?
- Did he stop your hydro bills or taxes from climbing?
- Did he tell you about the upcoming secret energy deals?

Randy says he will remain silent again if he is asked to. UNACCEPTABLE!

**Ward 3 deserves better...**

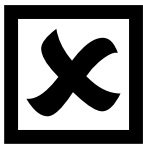

**FACT – Your representative MUST:**

- immediately report secret meetings; they ARE against the law
- carefully read & understand every document & REFUSE if it's fudged, forged or unsigned
- demand an independent, forensic audit on all the corporate books

“...any one who knew about secret meetings, AND chose to remain silent...
